THE NEWS.

A letter of "Mr. Mitchell," the official organ of the Church of the Latter Day Saints, in England, dated Liverpool, February 17, says that Elder Taylor, New York, at that time, was about to "go West" and report at conference next year. It has a very encouraging account of the progress of the work in England. There are now 30,000 Saints in the fold, and the number is increasing at the rate of 1,000 per month. Of this number, 1,000 are about to emigrate to Utah, and 2,000 more will go next year. Many of the Saints are poor, and are unable to go without assistance. The Church has a Perpetual Emigrating Fund, which is thrown open for their benefit, and to which they are required to contribute as they are able, that others may be assisted. Many of the Saints have been deprived of their property by the mobs, and are unable to emigrate for that reason. Many of the Elders have been driven from their fields of labor, and have returned to Zion. Many of the Saints have died of the cholera, and others have been driven from their homes by persecution. At the time of writing the letter, the cholera was raging in Liverpool, and many were dying daily. The Elders were laboring diligently, and the work was progressing rapidly. The letter is signed by Franklin D. Richards, President of the European Mission.

On the fields of the present year, and the year to come, the Church of Latter Day Saints will have to contend with the "Doctrines and Covenants," "Book of Mormon," and "The Voice of Warning," and by no means an insignificant array will "Hall Mormonism" make.

The leading article is on the Pacific Railroad, in which the editor charges the incendiarism of Mayor Wightman, of Washington, and the Board of Regents, Messrs. Wolfe, Hall and Gunnison, with the burning of the Smithsonian Institute. He says that the destruction of the Patent Office would be the destruction of the Treasury of the Union of Mind, and the Smithsonian Institute of the Treasury of Knowledge, both equally rich treasures, both equally worthy of preservation, both equally worthy of the fostering care of the Government, and both equally to be regretted and deplored for. Memory and history will not forget that every man that presides for the purpose of destroying either shall rival Herostratus in infamy.

Kossuth puts a Resolution in the mouth of the delegates, the support of her children, and the blessing of God, Joseph will be found to be entirely worthy of the name of Mother Smith's son.

The Boston Courier is publishing a series under the head of "Mormonism Revisited," the following are of "Mormonism Revisited," the following are

[illegible] Tuesday morning, Hon. Peleg Sprague, in Cincinnati, charged with having attempted to force himself into Lucy Cunningham's residence, and to commit a rape upon her person. The circumstances, as reported, are as follows: It appears that for two years the entire family of Mr. Cunningham, consisting of himself and wife, two sons, twins, Andrew Jackson and Andrew Johnson, and three daughters, grown to maturity, have been afflicted with a disease of the eyes, which has rendered them entirely helpless. Dr. Sprague, who is a physician, has been in the habit of visiting the family professionally, and has been treating the afflicted members for the disease. On Monday morning last, he called at the residence of Mr. Cunningham, and was shown into the room where Miss Lucy was sitting alone. He immediately commenced making improper advances to her, and on her refusing to submit to his embraces, he threatened to force her to do so. She then screamed for help, and he left the house. Mr. Cunningham, on learning the circumstances, had a warrant issued for the arrest of Sprague, and he was brought before Justice Hall, who committed him to jail to await his trial.

Y. have been added twelve on profession of faith; also, the Rev. Mr. Hamilton's church, recently been increased by large additions; in the Methodist Episcopal church, the ministers of Baldwin Institute have been assisted in their revival meetings by the Rev.
